

SHIFTING RHYTHMS

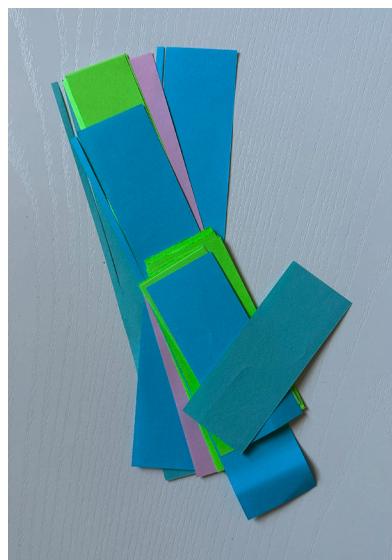

Pop-up Card

Time Estimate: 45 Minutes

Tags: Art, Design

Part 1: Materials

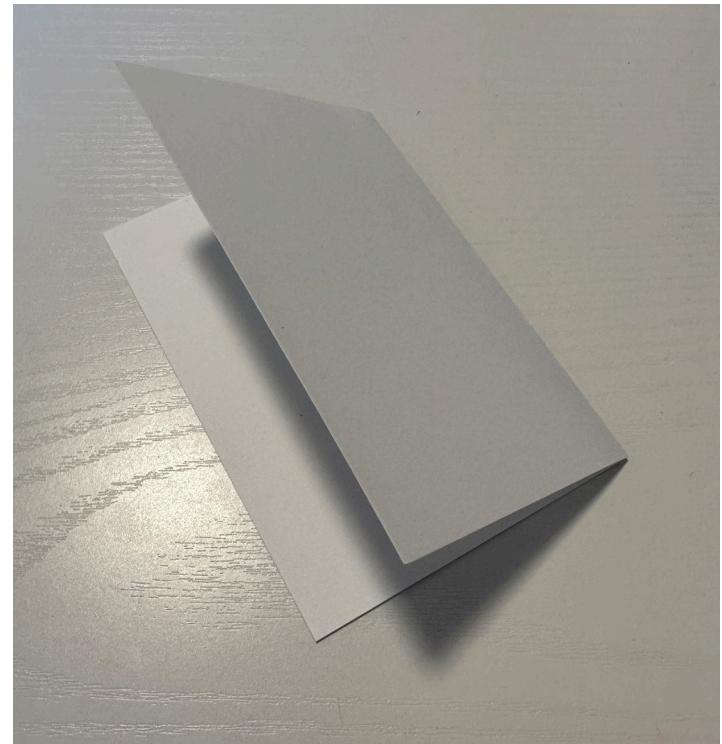

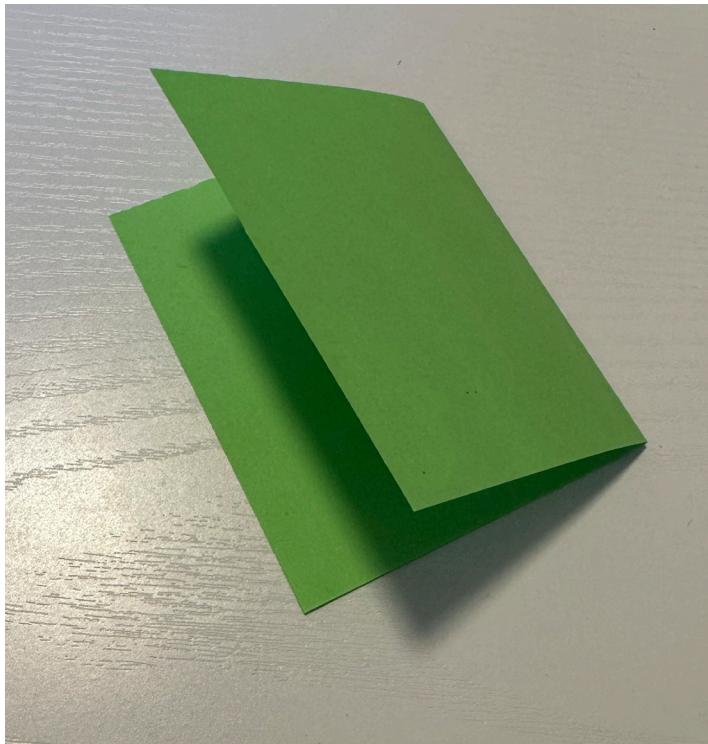

To complete your card you will need:

1. 2 pieces of paper (one a bit larger than the other)
2. Scissors
3. Something to draw with
4. Gluestick
5. Scrap paper for collage

Part 2: Fold and cut

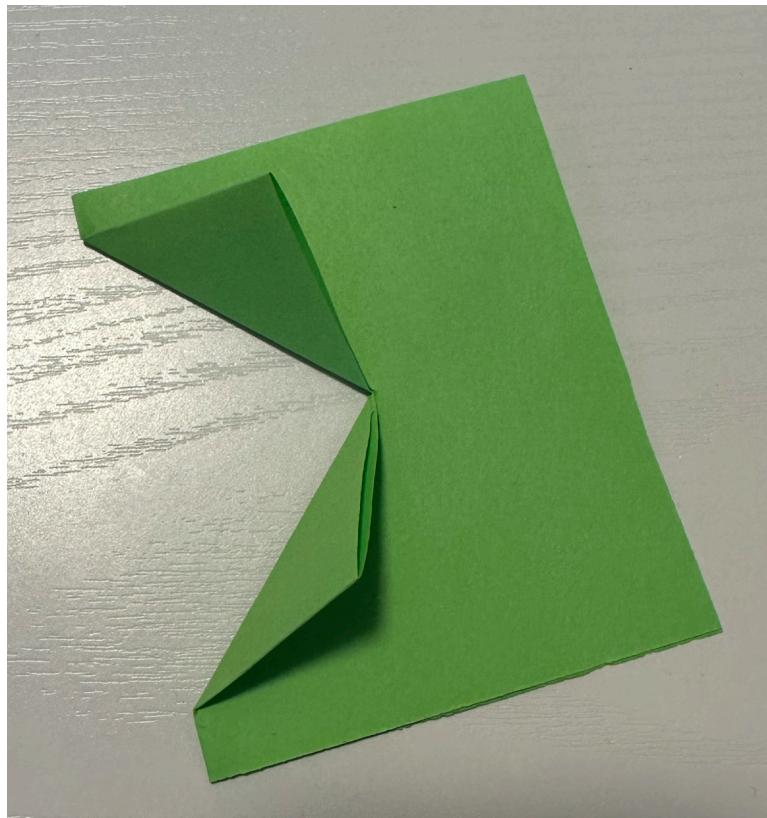

Take both pieces of paper and fold them in half the hamburger way.

Cut a slit into the folded side of the smaller piece of paper. The longer this cut is, the bigger the pop-up will be.

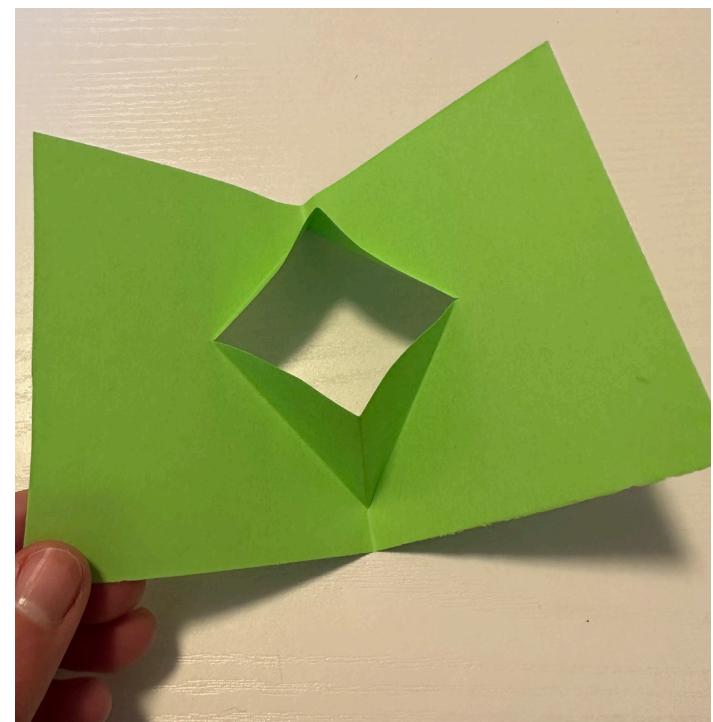

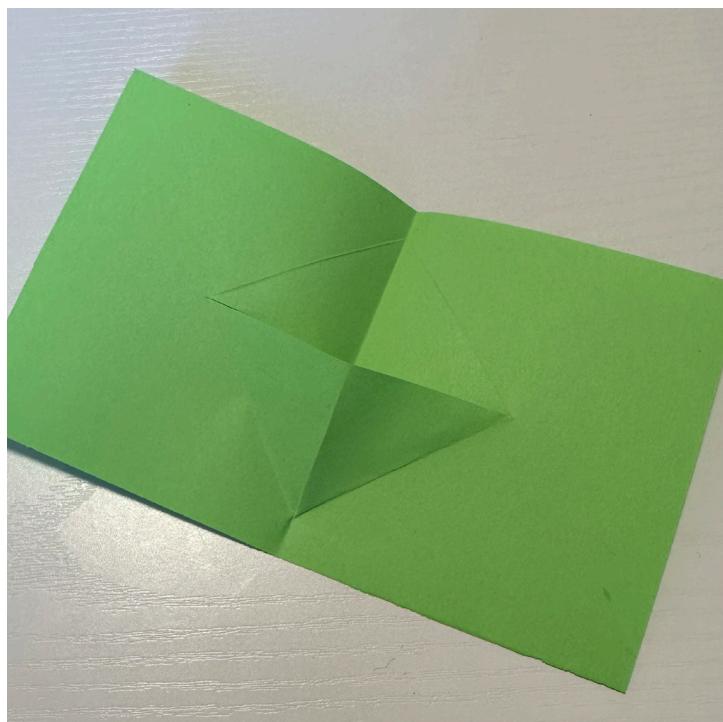

Part 3: Pop and glue

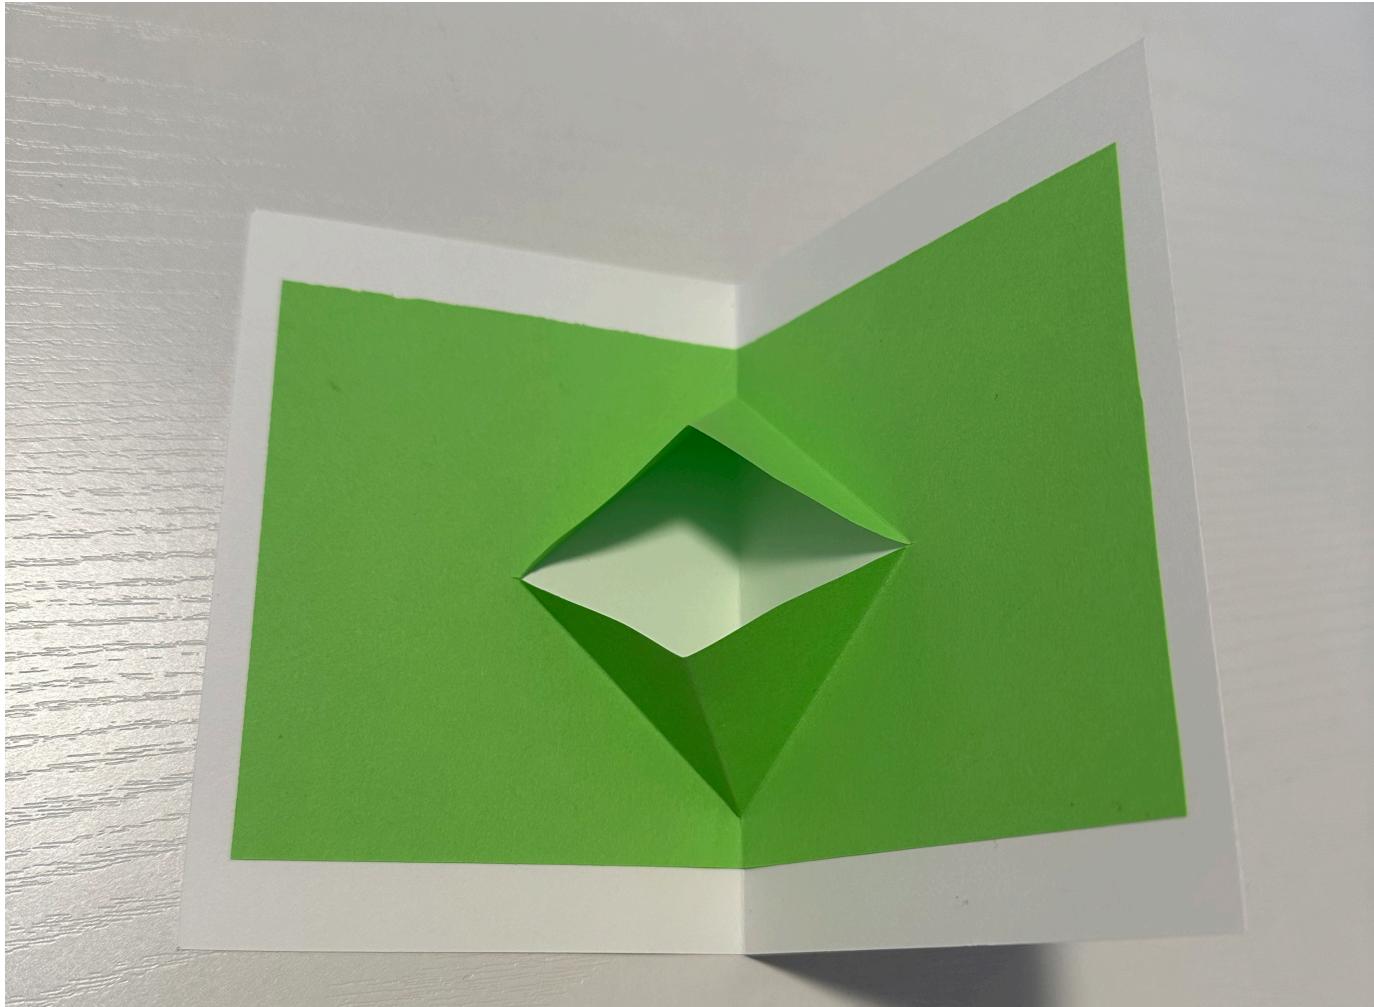

Fold the two flaps out from where you made the cut (making these folds at different angles will give a slightly different look). Then, fold these flaps back the other way by turning the paper over.

Flatten out the fold so you can open the card. Pull out the middle and crease the fold so it pops out of the inside of the card.

Part 3: Pop and glue

Glue the pop-up inside into the larger paper you folded earlier.

Part 4: Decorate

Decorate your card with cut out pieces of paper and any drawing materials you have. You can make your pop-up look like a beak or mouth by adding animal parts around it. You can also add cut paper to the pop-up and see how it moves when you open and close the card.
